DISCUSSION:

- 1) The Airport did not receive a grant for the sewer project on Bath Road in the 1st round. Passero will talk to the DOT for possibly resubmitting.
- 2) The FAA has still not released any grants for 2016
- 3) O'Connell still needs to complete some projects to get reimbursement. The NDB is still functioning sporadically. The Beacon has been adjusted and the NOTAM has been removed.
- 4) Rich is still working on the 5K race at the airport.
- 5) We have 5 Hertz cars for rent. We are still waiting for the Hertz computer and training before we can really market the availability of rental cars locally.
