Minutes of October 27th were approved

DISCUSSION:

- 1) Rick Ayers from Soil and Water discussed the construction of their storage building on Airport Property. The Soil and Water Board and the Airport Council both agreed to continue forward with the project with site plan approval and a lease agreement.
- 2) Council discussed the possible use of the contractor doing the lighting on runway 10-28 use the spoils from the ditching on the project to be use at the end of runway 10-28 for fill.
- 3) Daryl brought up again the notification in deeds within a certain radius of the Airport that and airport does exist in the vicinity of their property. Tim said he would discuss with the County Attorney.
- 4) Discussion took place on the Airport Master Plan that needs to be completed for the FAA. Passero has completed the update and the plan needs to be FURTHER reviewed by Council for any changes before submittal. This is a priority for the Council.
